TALES OF ENTREPRENEURS (TOE)

ToE is a platform that aims to help the sustainability of our Youth Entrepreneurs by promoting their businesses as well as sharing their success stories.

For the first feature of the month, we have Miss Kanitha Thanabalu who owns Pryns Test Prep Resources which is an educational consultancy that prepares students for the Scholastic Assessment Test (SAT), Graduate Management Admission Test (GMAT), Graduate Record Examinations (GRE), Advanced Placement (AP), International English Language Testing System (IELTS), Test of English as a Foreign Language (TOEFL) for admissions in educational institutions in United States of America and other parts of the world.

Miss Kanitha started off her career as a language teacher as she has enormous passion and dedication in teaching. Then, she went a level up to be a manager in a United States franchise company that prepares students to sit international exam papers. Her burning desire to be associated in this industry as well as continued inquiries about this service from her students encouraged and pushed her to start up her own company to prepare students which are required to fulfill certain criteria in order to continue their tertiary education abroad.

**Pryns Test Prep Resources****pryns_testprep_malaysia****princetonteampenang@gmail.com**

The second ToE in March featured Mr. Butheswaran, the founder of MB Car Battery, a company that specializes in car battery delivery and installation. At the same time, his company concentrates on battery replacement, battery diagnostics, and jump start assistance. He has completed his diploma in automotive studies before he enters into the business. He aims to build his own empire in this automotive industry.

His father, who has 30 years of expertise in the automobile sector, is the reason for his success in this profession. After completing his studies, he expanded his knowledge by working for other companies, which included disassembling and reassembling vehicle parts, effectively explaining issues and repairs to clients, successfully identifying mechanical problems, and being able to use testing equipment properly and effectively to ensure successful repairs.

Upon realizing that vehicle battery delivery and installation were rapidly growing, he established his own company, MB Car Battery, in Bukit Mertajam, which has now expanded to six locations, including Skudai, Jelutong, Bukit Jambul, Alma, Bertam, and Melaka. He has pushed young entrepreneurs to develop their skills in the sectors in which they are interested and to succeed in their chosen fields.
