Career Discovery Programme at SMK Telok Air Tawar 25 & 26.09.2023

On 14 September 2023, PYDC continued our Career Discovery journey at SMK Telok Air Tawar, whereby students get an insight of the culinary field.

Chef Syafiq Othman, a distinguished lecturer and research leader at the Faculty of Hotel & Tourism Management in UiTM Pulau Pinang, passionately advocates for the importance of choosing the right educational path after secondary school. He firmly believes that "poverty is not inherited, but a choice," emphasizing that education is the key to breaking this cycle. Chef Syafiq's unwavering commitment to motivating students is evident in his advice to prioritize academics, urging them to reach for the highest levels of education possible. UiTM Pulau Pinang offers a range of culinary arts programs, providing aspiring chefs with a strong foundation to excel in the culinary world and, in turn, achieve their dreams.

Career Discovery is an initiative by PYDC that aims to bring industry and education experts to high schools, providing students with insights into various career opportunities and the pathways they can pursue to achieve their ambitions.

In his world of photography and videography, the perks are boundless from discovering new horizons to make lifelong connections and being able to travel the world and explore diverse industries through his lens. For our Career Discovery workshop, the students had a chance to learn from the expert himself on photography and videography techniques!

To encourage young photographers and videographers, students embark on a mini project, capturing life's essence through themed photography within their school compound.
